Insulated Sectional Garage

and House Entrance Doors

Beautifully Created Composite Sectional and Entrance Doors

Compliment both - house and garage door.

Bespoke design

1000's of colours

Multiple glazing options

Whether you want to add a stylish touch to your garage, create a bespoke entrance with a composite door to match your existing design or to replace both and create a whole new look, Birkdale have the answer.

We have invested heavily in new machinery so we can provide composite doors with different surface finishes and optional glazing choices in thousands of colours; all from our UK manufacturing plant.

We welcome you to open this brochure, let your imagination design and create a beautiful kerbside appearance for your home.

Composite Sectional Garage Doors

Space Saving

Insulated

Secure

Fingersafe Panel Design

Mid-Ribbed or Flat panel design.

Fingersafe, insulated panel filled with high density foam enclosed in profiled steel outer sheet for greater strength.

AVAILABLE IN ONE OF **TWO DESIGNS** AND **FOUR FINISHES** SMOOTH, TEXTURED, TIMBER OR WOODGRAIN EFFECT

Innovative Operator

Low maintenance and only ONE moving part making it one of the most reliable operators available on the market.

Unique glazing options.

Over 16000 colours available.

1. Smooth
2. Textured
3. Woodgrain
4. Timber effect

Remote control as standard.

Modern or Traditional - we can make it work

We can offer a variety of glazing styles, with frames available in several shapes and sizes. We give you complete freedom in arranging them; your door can be glazed from top to bottom, left to right or angled across. Mixing them together can help you achieve interesting and stylish designs, making a real architectural statement.

Sizes of Cassettes

Glazing Examples

CLEAR

OBSCURE

CUSTOM DESIGNS

The glazing options are available with a clear or obscure polycarbonate infill fitted with either a brushed metal surround or a woodgrain embossed ABS frame, (colour matched to the door). Optional custom designed artwork also available see page 7.

Bespoke glazing options

Want something customized? A logo, crest or emblem for instance. We can supply almost any design. Please contact our sales team to discuss your options.

These sample designs are just an example of what we can do.

Cassette Types

Two types of cassettes are available. Both stylish and high quality to match most architectural styles.

BRUSHED METAL

ABS

Composite Entrance and Garage Doors. A match made into reality.

With our unique coating systems and garage door panel configuration we provide more choice than ever before.

Added to this, our compact hidden spring system and double roller system, you will achieve not only a fantastic look but a precisely engineered door that has industry leading warranties.

With extensive research and development we take the worry out of your purchase ensuring you get real value with a lasting design.

PRO+ Control Unit

EXTRA FLEXIBLE THANKS TO SEPARATE CONTROL UNIT HOUSING

PRO+
three flexible installation options

- ① the ceiling
- ② the rear
- ③ the front

Flexibility

- Separate control unit housing for installing on the wall or ceiling, depending on your requirements.
- The existing power socket in the garage is optimally suited for the power supply.
- When installing the separate control unit housing on the wall, the interior push-button is a convenient distance from the exit door.
- The control unit housing, which can be installed separately, makes an additional power socket and elaborate electric work unnecessary.

The PRO+ operator comes with:

3-piece track including carriage, control unit housing, fixing material (bracket, attachment to header and ceiling mounting unit), push arm and door bracket, pre-programmed Pearl 4-command transmitter.

Lock

Electro Magnetic Lock (option)

To give added security the Electro Lock is engaged directly into the motor preventing forced rotation of the motor. The added value of an extra 3000 newton's force gives added security and peace of mind. The lock will engage in any position when the operator is not active. Upon signalling from your handset the lock releases to allow free movement of your Operator.

Senso

Humidity sensor (option)

For measuring temperature and humidity of the garage. The carriage will automatically open the door as much as it is needed and provides perfect air circulation, once the ideal value is reached, the door will be closed again and the risk of molding decreases.

Alarm

Alarm / Warning buzzer (option)

The alarm recognises a break-in attempt and outputs a loud signal tone. The warning buzzer, on the other hand, outputs an acoustic signal during the closing process or when the slip door is open. The active time with the slip door open is adjustable. This also allows a doorbell function (signal when entering). Pre-warning before closing process also possible.

Solid and Secure Composite Doors

Our Composite Entrance doors are available in 1000's of colours to perfectly match our garage door. A small selection is shown below.

Choose from three styles and then, if you desire, add one of the many glazing options.

Birkdale have chosen what we feel compliment our garage doors the most but we also have a further comprehensive range of doors.

Please ask for our entrance door brochure if you would like a different design.
